

Energy Sustainability Conference

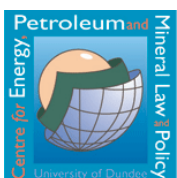

*Unconventional Petroleum vs. Global Warming
Scottish & Global Perspectives*

30th November 2015, 10.30am - 3pm

Carnegie Building Lecture Theatre
University of Dundee

Sponsored by:

About us

The organising committee is comprised of graduate students from the Centre for Energy Petroleum and Mineral Law and Policy (CEPMLP) who run the University of Dundee Chapter of the Students for Sustainable Energy for All network, as part of Global Energy Initiative.

This initiative is supported by:

Who should attend

Energy and sustainability students, researchers and academics interested or involved in Oil & Gas, unconventional petroleum industry or climate change policy and science.

Topics to be discussed

- What is unconventional oil and gas and how are they different from "conventional" ones
- Why everybody is talking about fracking
- What is attitude of local municipal authorities of Scotland towards shale petroleum production from land-use and environmental point of view
- Is there future for fossil fuels and particularly for unconvensionals in post-Paris global climate regime

Outcomes and Opportunities

The attendees will have an increased knowledge and awareness regarding nature of unconventional petroleum and problems their production pose, and will have the opportunity to:

- Assess pros and cons of such production
- Hear real stories about environmental considerations during local planning for use of shale fields
- Discuss implications and opportunities of the "shale revolution" in light of changing climate regime

Programme Agenda

10.00 - 10.25

Registration.
Coffee, Tea and Cookies

10.25 - 10.30

Presentation of SSEA

10.30 - 11.30

What is Unconventional Petroleum?

Stephen Dow
Senior Lecturer in Energy Law
CEPMLP, University of Dundee

Followed by Q&A's

11.30 - 12.30

Environmental considerations of local authorities in the process of land planning and allocation. Fracking in Scotland

Dr. Ariel Bergmann,
Lecturer in Energy Economics
CEPMLP, University of Dundee

Followed by Q&A's

12.30 - 13.30

Buffet Lunch

13.30 - 14.30

The role of fossil fuels in the future of sustainable energy systems under post-Paris climate regime

Dr. Francesco Sindico
Reader In International Environmental Law
University of Strathclyde, Glasgow

Followed by Q&A's

14.30 - 14.45

Prize draws for the Delegates.

14.45 - 15.00

Closing remarks

Registration

Further Information

Denys Nazarenko (SSEA President)	-	d.nazarenko@dundee.ac.uk
Vindhya Patil (SSEA Vice-President)	-	v.rajeevpatil@dundee.ac.uk 07780282669
Daniela Aguilar Abaunza (PR Coordinator)	-	d.aguilaraunza@dundee.ac.uk 07982025974

Registration Fee

Delegate Fee	-	£15.00
SSEA Members	-	Free

These fees include the conference attendance fee and refreshments and attendance certificate.

Register

You can register your place at <http://uod.ac.uk/1QxjLK2> and pay using a debit/ credit card.

Accommodation and Travel

The conference will take place in the Carnegie Building on campus at the University of Dundee.

Dundee is well connected by rail and road with the other major cities and airports in Scotland. The closest international airports can be found at Edinburgh and Glasgow. Dundee itself has a small airport which is connected by daily flights to and from London Stansted Airport.

T's and C's

Full terms and conditions regarding bookings, including the cancellation policy, can be found at the event listing detailed above and by then clicking on the 'More Info' tab.
